

**Geriatric Behavioral Health Conference
October 3 – 4, 2019**

CME OUTCOMES ASSESSMENT SUMMARY

Q1 - Overall, please rate your confidence level regarding the treatment of geriatric behavioral health BEFORE you participated in the conference.

#	Answer	%	Count
1	Very confident	0.00%	0
2	Fairly confident	53.33%	8
3	Somewhat confident	40.00%	6
4	Little confidence	6.67%	1
5	Not at all confident	0.00%	0
	Total	100%	15

Q2 - Please provide any comments regarding your confidence level BEFORE you participated in the conference.

- I am a student that is still learning
- I had worked geriatric, nursing home for 12 years before I left for my present job 10 years ago. I am now taking this kind of course due to my brother's problems and my advancing age. I am studying it for myself.
- I felt like I had some resources/referrals that I could use if asked.

Q3 - Overall, please rate your confidence level regarding the treatment of geriatric behavioral health AFTER you participated in the conference.

#	Answer	%	Count
1	Very confident	33.33%	5
2	Fairly confident	53.33%	8
3	Somewhat confident	13.33%	2
4	Little confidence	0.00%	0
5	Not at all confident	0.00%	0
	Total	100%	15

Q4 - Please provide any comments regarding your confidence level AFTER you participated in the conference.

- I feel like I have a better understanding of the ECT treatment.
- Great information
- So much of a broader/deeper knowledge of what is available.
- Just a better overall understanding of disease process and treatment options

Q5 - I have implemented changes in my practice as a result of attending the "Geriatric Behavioral Health Conference" on October 3-4, 2019.

#	Answer	%	Count
1	Yes	80.00%	12
2	No	20.00%	3
	Total	100%	15

Q6 - Please describe the changes you have made in your practice as a result of attending this activity.

- Improved confidence in selecting therapeutic recommendations for older adults.
- I'm a licensed mental health provider and I learned more about the interaction of medication with elderly patients and when I need to discuss with the physicians, I work with about things I might not have discussed with them before.
- We are looking more at different modalities of treatment options and engaging in further discussions with our providers about these possibilities.
- I have used intervention I learned regarding insomnia, depression and anxiety in the geriatric population.
- I became more understanding to my brother who moved himself from a waiver home to a nursing home. He knows just how to get under his sister's skin but I am reacting better.
- Resources for referrals.
- Better assessments and some changes in prescribing
- Higher doses of SSRI
- I've been more mindful of treatment planning for patients with cognitive concerns.

Q7 - Why have you not implemented any changes in your practice?

- Have not had a chance yet!
- I am a student still
- I am not a medical practioner

Q8 - I have encountered barriers to incorporating what I have learned into my practice.

#	Answer	%	Count
1	Yes	6.25%	1
2	No	93.75%	15
	Total	100%	16

Q9 - Please identify any barriers you have encountered in incorporating what you have learned into practice. Select all that apply.

#	Answer	%	Count
1	No barriers	0.00%	0
2	Lack of experience	0.00%	0
3	Lack of opportunity (patients)	0.00%	0
4	Lack of administrative support	0.00%	0
5	Insurance/reimbursement issues	0.00%	0
6	Lack of time to assess/counsel patients	100.00%	1
7	Patient/compliance issues	0.00%	0
8	Other (please specify)	0.00%	0
	Total	100%	1

Q10 - I feel that the knowledge and skills acquired at the conference have improved my practice and/or quality of patient care.

#	Answer	%	Count
1	Strongly Agree	40.00%	6
2	Agree	60.00%	9
3	Neutral	0.00%	0
4	Disagree	0.00%	0
5	Strongly Disagree	0.00%	0
	Total	100%	15

Q11 - Please provide any comments regarding improvements in your practice and/or the quality of patient care.

- Improved confidence and education of potentially complex psychosocial stressors and generational challenges facing older adults needing behavioral health treatment
- I have a better understanding of the different treatment options and I truly enjoyed hearing the case studies to make it more real and understandable.
- This was a great conference and it reinforced my knowledge.
- More knowledge to share.
- I am able to treat Geri psych pts in the home (ICF) setting without sending them to ER which causes further delirium.
