

**FAAST Diabetic Surgery Symposium  
February 12, 2021 | 7-9 pm CT | Zoom**

**Evaluation Summary Report**

**Which of the following virtual conference delivery methods would you prefer?**

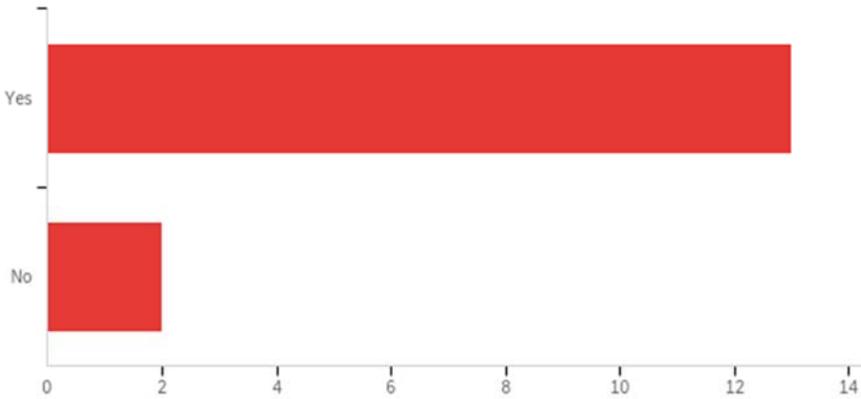

#	Answer	%	Count
1	Option 1: Continue with a similar format, weekend course starting Friday evening and ending Sunday morning.	78.57%	11
2	Option 2: Move to 10 one-hour sessions given in the evenings Monday - Friday for two consecutive weeks.	7.14%	1
3	Other (please describe your preference):	14.29%	2
	Total	100%	14

Other:

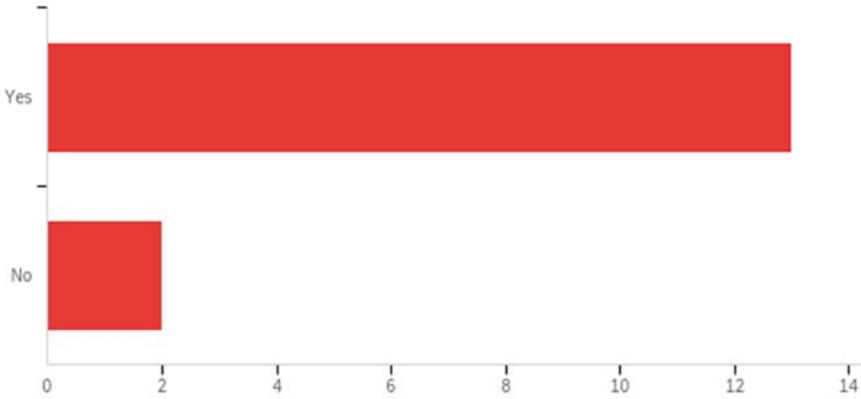

- No text responses.

**Once in-person courses are back to normal, would you still use virtual courses such as FASST for CME?**

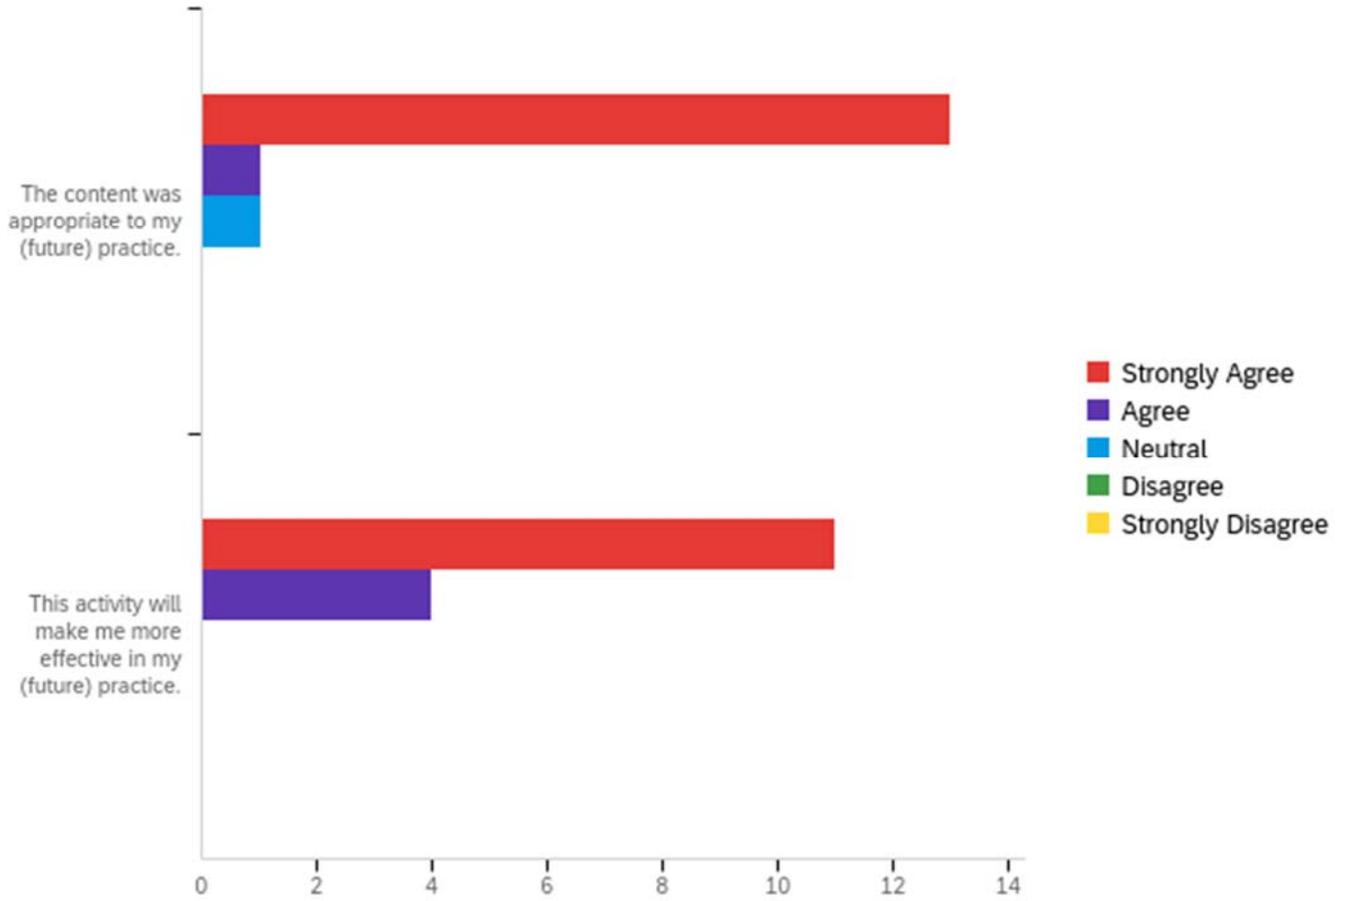

#	Answer	%	Count
1	Yes	86.67%	13
2	No	13.33%	2
	Total	100%	15

**Once in-person courses are back to normal, would you attend an in-person CME course at a resort destination?**

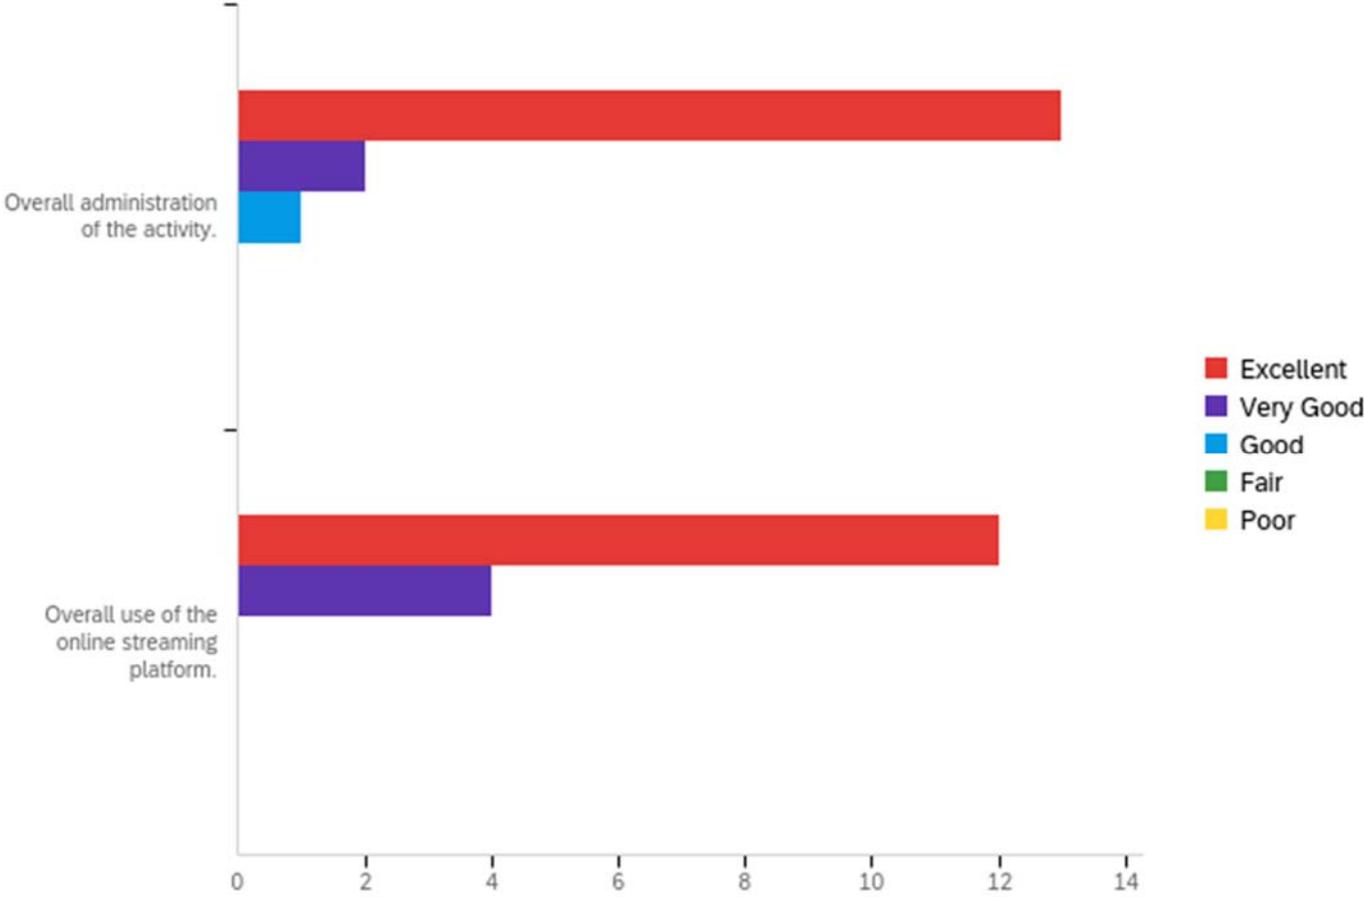

#	Answer	%	Count
1	Yes	86.67%	13
2	No	13.33%	2
	Total	100%	15

**Please indicate the extent to which you agree with the following statements:**

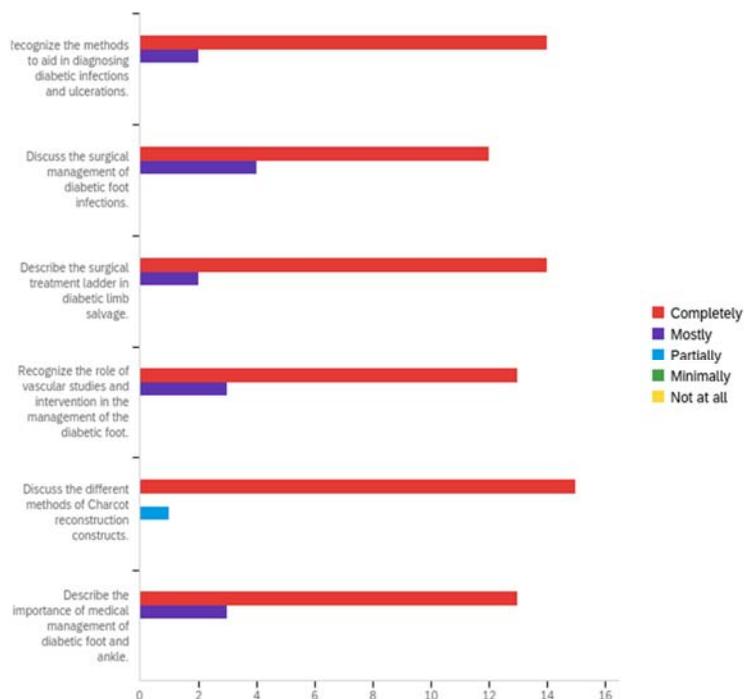

#	Question	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree	Total
1	The content was appropriate to my (future) practice.	86.67% 13	6.67% 1	6.67% 1	0.00% 0	0.00% 0	15
2	This activity will make me more effective in my (future) practice.	73.33% 11	26.67% 4	0.00% 0	0.00% 0	0.00% 0	15

Please rate the following:

#	Question	Excellent		Very Good		Good		Fair		Poor		Total
1	Overall administration of the activity.	81.25%	13	12.50%	2	6.25%	1	0.00%	0	0.00%	0	16
2	Overall use of the online streaming platform.	75.00%	12	25.00%	4	0.00%	0	0.00%	0	0.00%	0	16

## Did the activity meet your expectations in accomplishing the stated objectives?

#	Question	Completely	Mostly	Partially	Minimally	Not at all	Total					
1	Recognize the methods to aid in diagnosing diabetic infections and ulcerations.	87.50%	14	12.50%	2	0.00%	0	0.00%	0	0.00%	0	16
2	Discuss the surgical management of diabetic foot infections.	75.00%	12	25.00%	4	0.00%	0	0.00%	0	0.00%	0	16
3	Describe the surgical treatment ladder in diabetic limb salvage.	87.50%	14	12.50%	2	0.00%	0	0.00%	0	0.00%	0	16
4	Recognize the role of vascular studies and intervention in the management of the diabetic foot.	81.25%	13	18.75%	3	0.00%	0	0.00%	0	0.00%	0	16
5	Discuss the different methods of Charcot reconstruction constructs.	93.75%	15	0.00%	0	6.25%	1	0.00%	0	0.00%	0	16
6	Describe the importance of medical management of diabetic foot and ankle.	81.25%	13	18.75%	3	0.00%	0	0.00%	0	0.00%	0	16

**Please provide any suggestions for topics and/or speakers for future FASST conferences.**

- Updates on drugs and their indications such as antibiotics and anti-coagulants; overview of common medications for diabetes, HTN, etc. since there is always an evolution of these drugs and it is likely that sub-specialty practitioners are not aware of pertinent developments.
- Hands on options (once we can do this), post op protocols are always helpful, coding/dictation pearls/examples.
- It was great.

**Please provide any additional comments and/or suggestions below.**

- It was great.
- Thanks for allowing audience questions!

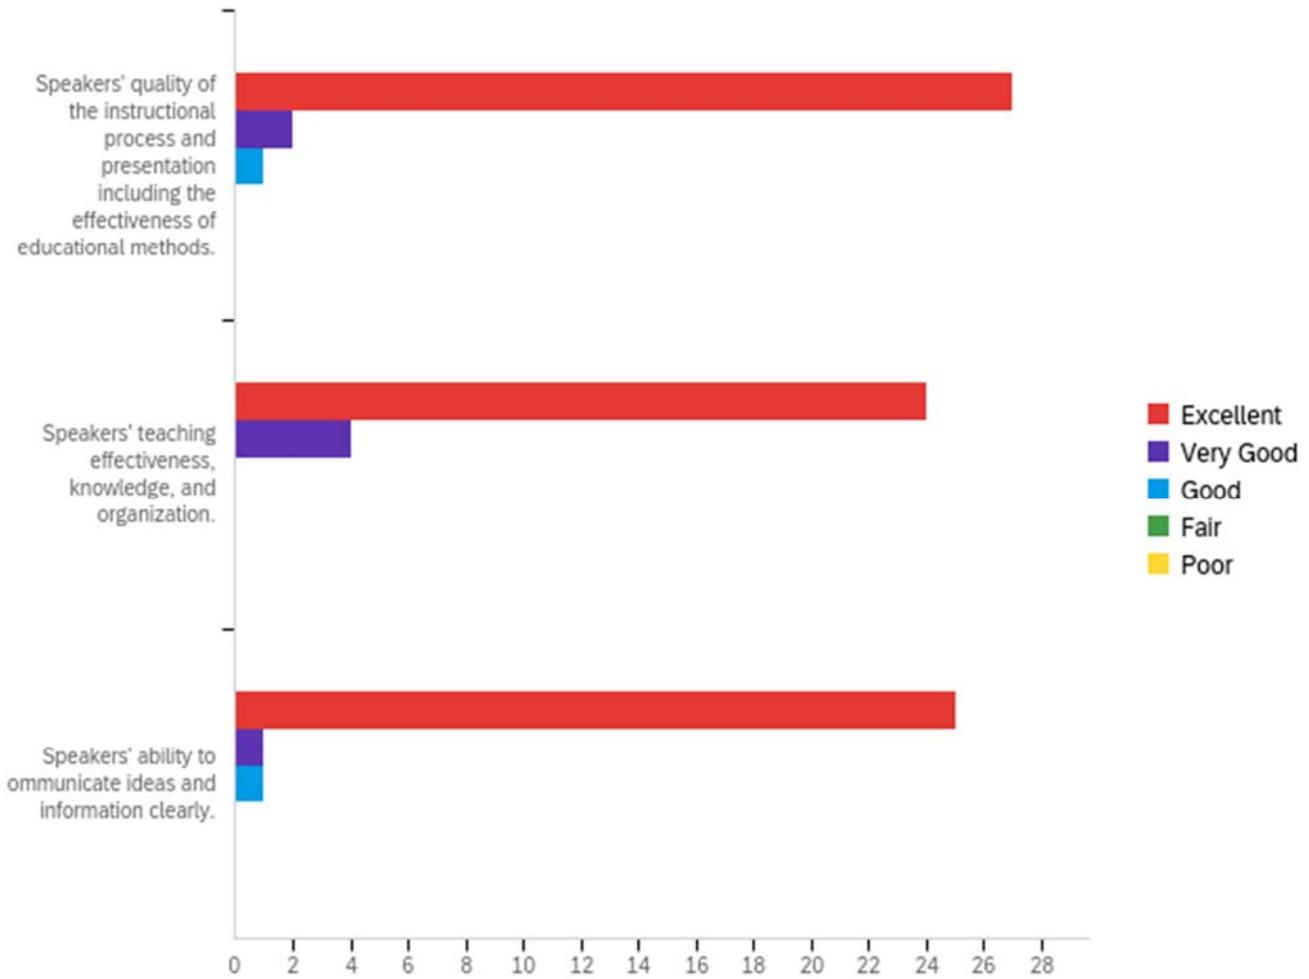

**Given the scope of your practice, what educational needs do you have?**

- As noted above.
- Wound care lectures.

## Friday Night Lights! Diabetic Disasters

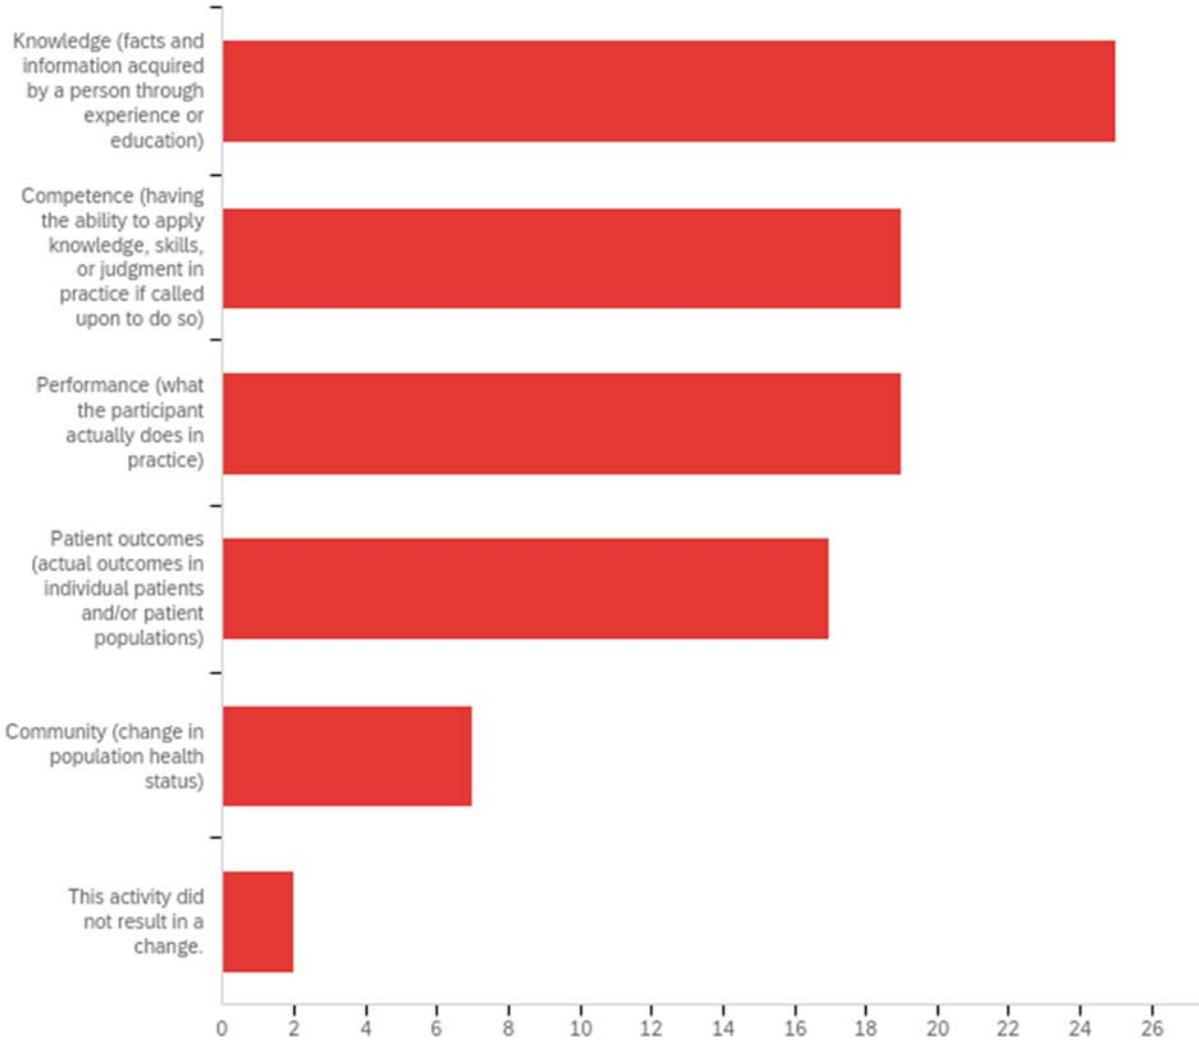

*Panelists: John S. Steinberg, DPM, FACFAS, Donald Bohay, MD, FACS, and Wesley Stotler, DO*  
 Friday, February 12, 7 pm CT

**Please rate the following:**

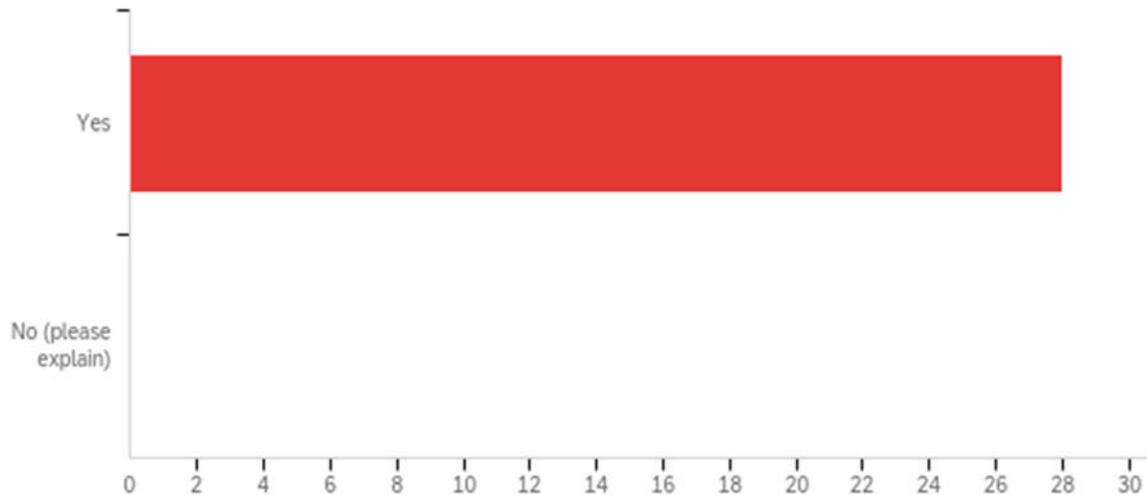

#	Question	Excellent		Very Good		Good		Fair		Poor		Total
1	Speakers' quality of the instructional process and presentation including the effectiveness of educational methods.	90.00%	27	6.67%	2	3.33%	1	0.00%	0	0.00%	0	30
2	Speakers' teaching effectiveness, knowledge, and organization.	85.71%	24	14.29%	4	0.00%	0	0.00%	0	0.00%	0	28
3	Speakers' ability to communicate ideas and information clearly.	92.59%	25	3.70%	1	3.70%	1	0.00%	0	0.00%	0	27

**This session will result in a change in my (select all that apply):**

#	Answer	%	Count
1	Knowledge (facts and information acquired by a person through experience or education)	28.09%	25
2	Competence (having the ability to apply knowledge, skills, or judgment in practice if called upon to do so)	21.35%	19
3	Performance (what the participant actually does in practice)	21.35%	19
4	Patient outcomes (actual outcomes in individual patients and/or patient populations)	19.10%	17
5	Community (change in population health status)	7.87%	7
6	This activity did not result in a change.	2.25%	2
	Total	100%	89

## Was this session balanced and free of commercial bias?

**Please describe any 'pearls' or takeaway messages. Include any changes or improvements in your practice that you plan to make as a result of attending this session. If no changes are identified, please explain why (program format, content not appropriate, nothing learned, etc.)**

- More consideration to preventive surgery.
- CT scan prior to I&D.
- Being able to listen to these conversations is priceless. Gaining insight and tips from a group with such extensive experience and knowledge is remarkable. Really enjoy the informal nature of these presentations.
- Use of CT on gas patients.
- Explaining your findings and being thorough is important to patient outcomes overall. Not delaying surgery with certain infections is crucial. Going big in Charcot reconstruction is key.
- I think this evening meeting will help in my overall evaluation of the patient and treatment plan.
- With all cases, the importance of patient education was evident. Being more aggressive with hardware and proper placement of the hardware seems to be the key when working with the diabetic demographic.
- Confirmed current practice principles.
- It was great.
- Many.
- Get a CT prior to going OR for I+D of an abscess with gas showing on x-ray.

**Do you have any unanswered questions, feedback regarding the speakers, or additional comments?**

- N/A
