

Enhancing Collaboration in Rehabilitation: A Cross-Institutional Interprofessional Education Experience

Cara Berg-Carramusa, PT, MSPT, EdD

Associate Professor & Asst Director Clin Ed
Tufts University– DPT Seattle

Lynne Clarke, OTD, MS, OTR/L

Professor & Chair
Rockhurst University – OTD Kansas City

Kirsten Potter, PT, DPT, MS

Professor & Director of Curriculum
Tufts University– DPT Seattle

Suzanne Fox Trotter, PT, MPT, ScD

Associate Professor & Director of Student Affairs
Tufts University– DPT Seattle

No disclosures.

Objectives

1. Outline an integrated experiential interprofessional education (IPE) learning event pairing two independent graduate academic programs.
2. Describe feedback from participating DPT and OTD students about their learning related to inter-professional education and practice (IPP).
3. Show the effectiveness of a single IPE event between a DPT and OTD academic program.

SCHOOL OF MEDICINE
Department of
Rehabilitation
Sciences

Method

- ❖ Faculty from an entry-level hybrid DPT program and entry-level residential OTD program designed an interactive IPE event to promote awareness of each other's professional roles and responsibilities.
- ❖ Developed project in keeping with philosophy of IPE education to promote skill, knowledge development, cooperation, communication skills, and professional respect among allied healthcare students (Dixon et al., 2024).
- ❖ Conducted a mixed-methods research project to gather student perspectives in response to the joint IPE Event. Attained IRB approval from both institutions prior to commencing. 83 students participated in the assignment (56 DPT and 27 OTD). DPTs were in 1st term and OTDs were in 2nd term of respective programs.

IPE Event: Three Parts

1. Pre-work on Canvas

Research OT and PT roles and responsibilities & case study review

2. Two-hour virtual live synchronous event

Small breakout groups to discuss OT and PT roles, responsibilities, similarities, and differences in the case study and practice

3. Post-work on Canvas

Interprofessional Collaborative Competencies Attainment Survey (ICCAS) and a post-session reflection/ self-assessment

Interprofessional Collaborative Competencies Attainment Survey (ICCAS)

(Archibald, et al., 2014)

Before participating in the
learning activities I was able to:

After participating in the
learning activities I am able to:

Communication	1	2	3	4	5	6	7	na
1. Promote effective communication among members of an interprofessional (IP) team*	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. Actively listen to IP team members' ideas and concerns	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. Express my ideas and concerns without being judgmental	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. Provide constructive feedback to IP team members	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. Express my ideas and concerns in a clear, concise manner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Collaboration								
6. Seek out IP team members to address issues	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. Work effectively with IP team members to enhance care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. Learn with, from and about IP team members to enhance care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Roles and Responsibilities								
9. Identify and describe my abilities and contributions to the IP team	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
10. Be accountable for my contributions to the IP team	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
11. Understand the abilities and contributions of IP team members	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
12. Recognize how others' skills and knowledge complement and overlap with my own	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Collaborative Patient/Family-Centred Approach								
13. Use an IP team approach with the patient** to assess the health situation	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
14. Use an IP team approach with the patient to provide whole person care	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
15. Include the patient/family in decision-making	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Conflict Management/Resolution								
16. Actively listen to the perspectives of IP team members	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
17. Take into account the ideas of IP team members	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. Address team conflict in a respectful manner	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Team Functioning								
19. Develop an effective care*** plan with IP team members	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20. Negotiate responsibilities within overlapping scopes of practice	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

1	2	3	4	5	6	7	na
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Data Analysis

Statistical analyses using SPSS v29.0 to determine significant changes in ICCAS scores from pre- to post-session.

Normality for 6 domains of ICCAS was assessed using the Shapiro–Wilk test. Wilcoxon Signed-Rank test was performed to compare paired pre- vs. post-session scores. Two-tailed exact tests were used to compute p-values, and statistical significance was set at $p < 0.05$.

Qualitative responses from the reflection survey were initially coded by ChatGPT and then reviewed by two faculty researchers to ensure accuracy and to refine the data.

Quantitative Results (SPT, n=56)

Construct	Pre	Post	
	Median (IQR)	Median (IQR)	p-value
Communication	30.0 (26.3, 34.0)	33.0 (31.0, 35.0)	<0.001
Collaboration	18.0 (13.0, 20.0)	21.0 (18.3, 21.0)	<0.001
Roles and Responsibilities	23.0 (20.3, 25.8)	28.0 (25.0, 28.0)	<0.001
Collaborative Patient/Family-Centered Approach	18.0 (15.0, 20.0)	21.0 (18.0, 21.0)	<0.001
Conflict Management/Resolution	20.0 (18.0, 21.0)	21.0 (20.3, 21.0)	<0.001
Team Functioning	10.0 (8.0, 12.8)	14.0 (12.0, 14.0)	<0.001

Quantitative Results (OTS, n=27)

Construct	Pre	Post	
	Median (IQR)	Median (IQR)	p-value
Communication	26.0 (24.0, 30.0)	32.0 (30.0, 35.0)	<0.001
Collaboration	15.0 (13.0, 18.0)	20.0 (18.0, 21.0)	<0.001
Roles and Responsibilities	21.0 (19.0, 24.0)	27.0 (24.0, 28.0)	<0.001
Collaborative Patient/Family-Centered Approach	16.0 (14.0, 18.0)	20.0 (19.0, 21.0)	<0.001
Conflict Management/Resolution	17.0 (15.0, 18.0)	20.0 (18.0, 21.0)	<0.001
Team Functioning	9.0 (7.0, 11.0)	12.0 (11.0, 14.0)	<0.001

Qualitative Themes

- ❖ Communication
- ❖ Collaboration
- ❖ Roles & Responsibilities
- ❖ Collaborative Patient & Family-Centered Approach
- ❖ Conflict Management & Resolution
- ❖ Team Functioning
- ❖ Confidence
- ❖ Perspective Shifts
- ❖ Deepening of Learning
- ❖ Curriculum Consideration

Qualitative Results – Direct Quotes

"We actively listened to one another, taking into account the different approaches to reach the same desired outcome. Recognizing how complimentary each discipline can be to the other with great benefit to the patient."

"I thought it was really neat to see the overlap in OT and PT and that it isn't about 'they do this, and we do that,' but more so a holistic approach to the patient, and we can both work on similar goals at the same time to help support the patient the best."

Qualitative Results – Direct Quotes

"We both share many characteristics but still have distinct practices in our scopes to differentiate our avenues of treatment. OTs really specialize in the fine motor skills of an individual that gives them a sense of self, as does a PT when working to establish their gross motor skills that allow them to move in any environment effectively."

"It's such an awesome experience that we put our own skills together to work towards a goal. It feels like we come together as a superhero group and bring uniqueness into our service primarily to serve others."

"

Qualitative Results – Direct Quotes

"I believe that open communication is something that before the IPE experience I had a small appreciation for (sic). After the event, I have a deeper understanding of the vital role that team function (sic) and communication plays in the care of the patient. The patient's care will be only as effective as the performance of the entire team. If PT and OT can work more effectively in that team dynamic, the patient will benefit in their treatment."

"I would love to do more of this. The opportunity to collaborate on cases where our professions overlap gives us a stronger sense of comfort and fluidity within interdisciplinary settings."

Discussion

- ❖ Mean change scores for both student groups across **all** ICCAS domains were statistically significant.
- ❖ Pre-work helped to lay a foundation for further discussion in the synchronous session.
- ❖ Students enjoyed and valued the IPE learning opportunity.
- ❖ Students gained respect for other profession and for working together.
- ❖ Event helped to dispel beliefs about the differences between PT and OT, as students realized the commonalities shared between the two professions.
- ❖ Students feel better prepared to communicate the value of their own profession and use this information when advocating on behalf of their patients.

Limitations and Conclusion

❖ Limitations

- ❖ Fewer OT students (n=27)
- ❖ ICCAS is a self-report measure
- ❖ Using AI for analysis is gaining acceptance among academic communities

❖ Feasible and beneficial learning experience.

❖ Noted a statistically significant results in the ICCAS after single IPE Event.

❖ Both Rockhurst and Tufts will be continuing the event in their curricula.
