### Resident Education Day

September 20 - 21, 2012

Register today!

A highlight of the HEARTland Network OPTI is [Resident Education Day](#). This is a concentrated educational session focusing on OMM skills, Simulation Laboratory experiences and professional development presentations. It is offered to the residents of affiliated programs as a benefit of membership.

Thursday evening's session begins with a networking dinner followed by keynote speaker for a professional development presentation. Jeff Gray, Ph.D., VP of Research for DMU, will be presenting an interactive lecture on "Critical Interpretation of Research Publications". All residents, program directors and program faculty are strongly encouraged to attend this presentation. AOA CME credit will be awarded.

The HEARTland Network OPTI Board will meet on Friday morning. During this time, the residents will attend a presentation by Luke Mortensen, PH.D (HEARTland OPTI Professional Development Director) on "Interacting with the Difficult Clinical learner". All residents will participate in a short SIM Lab resident education session. Faculty and staff and strongly encouraged to join the residents in this session to observe.

The afternoon will be dedicated to interactive case-based OMM sessions.

Dr Mortensen will also provide a professional development session to the Residency Program Coordinators on the topic of “Effective Communication”. Anyone is welcome to attend this session.

### **How are Topics Chosen for the Professional Development Sessions?**

Results from a formal needs assessment survey done every other year with the members provides a list of topics for us to choose from as well as feedback provided from the evaluations of previous workshops and conferences provides information for the planning of future Resident Education Day curricula. Also timely medical issues effecting healthcare identified by state and national medical organizations are considered for inclusion. We strive to identify topics in which the information we provide information can be used immediately upon returning to patient care. So it is important when completing evaluations that you provide a list of topics that you would like to learn more about in future meetings.

### **Registration**

There is not a fee to attend but registration is encouraged.

### **Contact**

### **Continuing Education Credit**

AOA: Des Moines University is accredited by the American Osteopathic Association to present continuing medical education programs for physicians. Des Moines University designates this program for a maximum of 2.0 hours of AOA Category 1-A CME credits.

Everyone in a position to control the content of this educational activity will disclose to the CME provider and to attendees all relevant financial relationships with any commercial interest. They will also disclose if any pharmaceuticals or medical procedures and devices discussed are investigational or unapproved for use by the U.S. Food and Drug Administration (FDA). Determination of educational content for this program and the selection of speakers are responsibilities of the program director. Firms providing financial support did not have input in these areas.

### **Discrimination Statement**

Des Moines University (DMU) prohibits discrimination in employment, educational programs, and activities on the basis of race, national origin, color, creed, religion, sex, age, disability, veteran status, sexual orientation, gender identity, or associational preference. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. Individuals with disabilities are

encouraged to attend all DMU sponsored events. If you are a person with a disability who requires an accommodation in order to participate in this program, please contact the DMU Continuing Medical Education Office at 515-271-1541 or [cme@dmu.edu](mailto:cme@dmu.edu) prior to the program.
