

**Flowstate Health** is a collaborative mental health services organization operating in Iowa and Nebraska. We are mental health professionals providing medication evaluation and management, psychotherapy, crisis evaluation and placement, and other services for people of all ages. Our providers collaborate in the care we provide, with particular attention to integrating therapy with medication evaluation where indicated.

## Flowstate Health Leadership Team

**Steven Slye**

Owner

**Brenda Hoskins-Mein**

DNP, ARNP, PMHNP-BC,  
Chief Clinical Officer

**Jane Daniel**

PhD, Licensed Psychologist,

## Career Opportunities:

The Flowstate team is made up of talented, compassionate and licensed mental health professionals. Our expertise covers a variety of specialty areas within the mental health field.

Full- and part-time positions are available for licensed providers and for on-site and telehealth work in a variety of venues. We honor staff autonomy, self-determination, flexibility and a healthy work-life balance.

We are a fast-growing health service company with opportunities for business partnership, stock options for employees, career growth in management, clinical consultation and mentoring of junior providers. Flowstate senior staff provide support for your development as a professional. We have a substantial pipeline of new business and requests for our services and are looking for the right team members to support our growth. Join the flow!

## Divisions:

Our **Senior Services Division** provides psychotherapy, medication evaluation and management to adults living in nursing homes and assisted living facilities or to adults living independently under the support of various adult and senior services agencies. Our work in this division is characterized by partnership with the other professionals and caregivers serving the clients.

Our **Crisis Services Division** partners with local hospitals and the Iowa Mental Health and Disability Services Regions to provide crisis evaluation and placement in mental health-specific facilities.

Our **Outpatient Services Division** provides access to our services to third parties, such as community mental health centers and jails, for psychotherapy, medication evaluation and management, and other services.
