

Senior Life Solutions provides **exceptional care** to your patients and adds tremendous **value** to your hospital and community.

WHO WE ARE

Our founder, James A. Greene, M.D., a geriatric psychiatrist, was born and raised in a rural community, which today hosts a critical access hospital. He developed Psychiatric Medical Care (PMC) with the sole mission to improve the quality of life of older adults living in rural communities.

Today, our Senior Life Solutions program is located in more than 25 states across the U.S.

We are dedicated to delivering exceptional care, investing in the local community, and upholding the highest standards of compliance.

COMMUNITY NEED

Our Senior Life Solutions program is designed to address the emotional and behavioral health of adults typically 65+, which is currently the fastest-growing population segment in the United States.

WHO WE SERVE

Senior Life Solutions provides patients a broad combination of medical and social therapies that will improve emotional stability, maximize the quality of life and help patients identify and develop coping skills.

We assist patients suffering from:

- Anxiety
- Cognitive Changes
- Depression
- Deterioration of Daily Living Skills
- Loneliness or Sadness
- Sleep Disturbance
- Social Withdrawal
- Unresolved Grief

THE CLINICAL TEAM

We provide an interdisciplinary team led by a psychiatrist, M.D./D.O., which includes a licensed therapist, registered nurse, and other trained professionals committed to quality care and compliance.

Our clinical leadership team consists of some of the most knowledgeable and recognized mental health leaders in the country. We offer extensive support to our hospitals including recruiting, training, and education for each clinical function.

SERVICES WE PROVIDE

PMC provides the following services with the Senior Life Solutions program

- Program management and operational oversight.
- Financial impact and cost report analysis.
- Physician and staff recruitment.
- Policies and procedures templates.
- Telepsychiatry system and capability.
- Compliance and crisis prevention training.
- After-care programs post-discharge.
- Award-winning community education support.
- Forms and billing training.
- Partnerships with medical schools.

OUR PARTNERSHIP

Our program is designed to meet the specific needs of acute care hospitals based in rural areas.

We partnered with small and large, for-profit and non-profit, critical access hospitals. Together we can address your community's needs and improve your seniors' quality of life while providing a financial benefit to your hospital.
